

Biomedical Gerontology

Vol.22, No.1, June, 1998

SYMPOSIUM SESSION:

- S-1 The Maillard Reaction in Aging
F. Hayase 1
- S-2 The mechanisms of D-amino acid formation in aged lens.
N. Fujii 3
- S-3 Characterization of Abserrant Proteins Generated under
Oxidative stress
K. Uchida 8
- S-4 Mechanism of amyloid fibril formation
K. Higuchi 10
- S-5 Carbonylation and Ubiquitination of Proteins with Age
R. Takahashi 13
- S-6 Proteome Analysis and Database Construction of Abnormal
proteins in Aging Research.
T. Toda 17

Regular Papers:

- 1 Estimation of limit age
K. Suematsu, T. Kohno and M. Kohno 21
- 2 Effects of parity on rat longevity
K. Kuramoto, K. Tanemura, H. Yamazaki, K. Fujino
and K. Koshima 22
- 3 Alteration of adrenocortical zonation with aging in male Donryu rats
from Aichi Medical University Aging Farm. Preliminary reports
S. Tanaka, Y. Ito, O. Miyaishi, T. Sato and H. Tauchi 23
- 4 Intestinal disorder of SAMP6
O. Miyaishi, S. Tanaka, K. Kitani and K. Isobe 24
- 5 Identification of quantitative trait loci that control low peak bone
mass using a spontaneously osteoporotic mouse strain, SAMP6
M. Shimizu, K. Higuchi, T. Tsuboyama, M. Matsusita,
M. Kimoto, H. Fujisawa, C. Xia, T. Chiba, T. Nakamura
and M. Hosokawa 25

6	Type B apoA-II and SAM J. Wang, T. Matsushita, K. Kokishi, C. Xia, T. Chiba, M. Hosokawa and K. Higuchi	26
7	Age associated change of IFN- γ producing function in SAMP1 R. Naruse, Y. Nishimura and T. Hosokawa	27
8	Aminoguanidine supplementation improves senescence acceleration <i>In-vitro</i> in dermal fibroblast-like cells from the Senescence-Accelerated Mouse (SAM) H. Fujisawa, F. Kojima, T. Nishikawa, B. Zhu, Y. Nishimura T. Matsushita, K. Higuchi and M. Hosokawa	28
9	The role of brain mitochondria in the hyperoxidative status of the Senescence-Accelerated Mouse, SAMP8 T. Nishikawa, J. Takahashi, Y. Fujibayashi, H. Fujisawa, B. Zhu, Y. Nishimura, K. Ohashi, K. Higuchi, N. Hashimoto and M. Hosokawa	29
10	Enhancement of immunoactivity by administration of low-dose cyclophosphamide in old mice. N. Ishiyama, M. Utsuyama and K. Hirokawa	30
11	Old thymus induces different subsets of T cells with different profile of cytokine production M. Utsuyama, J. Shiraishi, A. Wakabayashi and K. Hirokawa	31
12	Oral tolerance and aging (2) A. Wakabayashi, T. Hosoda, M. Utsuyama, K. Sato and K. Hirokawa	32
13	Role of mast cells on pathogenesis of arthritis rheumatoid model Y. Kobayashi, S. Li, J. Shen, E. Kakizoe, H. Zhao and H. Okunishi	33
14	Discharge properties of spinal nociceptive neurons in aged rats K. Kanda, K. Iwata, E. Nomoto, Y. Tsuboi and R. Sumino	34
15	Aged-related changes in hippocampal projection of rat locus coeruleus neurons Y. Ishida, T. Shirokawa, O. Miyaishi, Y. Komatsu and K. Isobe	35
16	Aged-related changes in cortical projections of rat locus coeruleus neurons T. Shirokawa, Y. Ishida and K. Isobe	36
17	Effects of oxidative stress on cultured rat glial cells during aging T. Shinkai and M. Takahashi	37

18	Cell death and neurite formation of cerebral cortical neurons by reactive oxygen species F. Gomi and Y. Uchida	38
19	Molecular analysis of the formation, maintenance, and remodeling in neuromuscular synapse K. Shigemoto, S. Yamada, K. Obata, S. Kubo, N. Maruyama and I. Kondo	39
20	Completely artificial foods of <i>Drosophila melanogaster</i> developed for the research in longevity sciences. I. Yonemura, A. Okano and H. Hasekura	40
21	Establishment and characterization of 4 strains of rat deriving from F344 under different nutritional environments S. Shumiya, K. Kuramoto, H. Waki, K. Tanaka, S. Ando, H. Ebisawa, H. Itoh and M. Kaneko	41
22	Effects of the dietary restriction on the aged-related disease and organ function in the rats. Y. Ito, Y. Mizutani, T. Sato, H. Tauchi and S. Momose	42
23	Intestinal lipid transport in young and old rats Y. Sato, H. Hayashi, S. Kanai, M. Masuda, M. Ohta, A. Funakoshi K. Imaizumi and K. Miyasaka	43
24	Effects of aging and dietary restriction on apoptosis-associated gene expression in the liver Y. Higuchi, I. Shimokawa, K. Tanaka, T. Kawahara and T. Ikeda	44
25	DNase γ expression of aging and carcinogenesis in the Liver K. Tanaka, Y. Higami, I. Shimokawa, T. Kawahara, M. Tomita, T. Ikeda and S. Tanuma	45
26	Effects of dietary restriction on aging-dependent changes in Fas and Fas ligand expression in anterior and posterior lobes of the rat pituitary gland K. Yanagihara, I. Shimokawa, Y. Higami and T. Ikeda	46
27	The pattern of GHRH level in the rat hypothalamic arcuate nucleus -Influence of age and lifelong dietary restriction- T. Okimoto, I. Shimokawa, Y. Higami, K. Ohta and T. Ikeda	47

- 28 Aging-dependent changes in gene expression of insulin receptor, type 1 insulin-like growth factor receptor, and insulin receptor substrate-1 in the diaphragm, and quadriceps femoris muscle
T. Kawahara, I. Shimokawa, M. Tomita, Y. Higami, K. Tanaka, K. Ohta and T. Ikeda 48
- 29 A potential role of leptin in the anti-aging action of dietary restriction
I. Shimokawa, Y. Higami and T. Ikeda 49
- 30 Age dependent decline of protein lateral diffusion coefficients of cell type other than hepatocytes in rodents
K. Kitani and S. Tanaka 50
- 31 Alteration of glycoprotein in the spinal cord during aging
Y. Sato, A. Kobata and T. Endo 51
- 32 Erythrocyte aging by oxidative modification in the circulation
K. Kikugawa, K. Ando and M. Beppu 52
- 33 Changes in F-344 rat liver proteasomes with age
T. Hayashi and S. Goto 53
- 34 Molecular characteristics of Immaturin in Paramecium
N. Haga 54
- 35 Gene expression of gadd 34 family by stress stimuli with drug
T. Hasegawa, Y. Kimura, K. Maehara, A. Takeuchi and K. Isobe 55
- 36 Analysis of p21/WAF1 promoter
H. Wiao, T. Hasegawa, O. Miyauchi and K. Isobe 56
- 37 New functions of SMP30 on cellular morphology
T. Fujita, H. Inoue, S. Handa, K. Noda, C. Kanai, K. Takeuchi, T. Kitamura and N. Maruyama 57
- 38 Participation of bcl-2 on cellular life span
T. Kumazaki, M. Nishiyama and Y. Mitsui 58
- 39 Molecular cloning of a nematoda mutant with oxygen-dependent short lifespan
N. Ishii, M. Fujii, P. Hartman, M. Tsuda, K. Yasuda, N. Matsuda, S. Yanase, D. Ayusawa and K. Shuzuki 59
- 40 The sod-3 gene expression of the life-extension mutants in *C. elegans*
Y. Honda and S. Honda 60

41	Promoter analysis of manganese superoxide dismutase gene K. Maehara, T. Hasegawa, R. Abe, A. Takeuchi, H. Xiao, and K. Isobe	61
42	Search for genes which play roles on recovery of SOS-like response by interferon in human cells K. Kita, K. Sugita, Y. Higuchi, Y. Wu, H. Nakanishi, H. Tanzawa and N. Suzuki	62
43	Analysis of mutation which accumulate in aging process T. Ono, H. Ikehata and K. Yamamoto	63
44	Relationship between aging and tumorigenesis in fidelity of DNA synthesis T. Taguchi, M. Ohashi, T. Kaneko, S. Tahara and M. Tanno	64
45	Impairment of thermogenic activity in brown adipose tissue with age H. Yamashita and N. Mori	65
46	Fos expression and sclerosis in aged renal glomeruli T. Imasawa, R. Nagasawa, Y. Etoh, S. Handa, T. Fujita and N. maruyama	66
47	Regulation of telomerase activity and telomere length during spermatogenesis in the mouse K. Tanemura, H. Gotoh, K. Matsumoto, A. Ogura, K. Kuramoto E.M. Eddy, E. Sato and Y. Hayashi	67
48	Genetic factors for aging: testing a hypothesis that carriers of disease genes have adverse health risks and thereby shortened life span A. Koizumi, T. Kayo and Y. Wada	68
49	Disappearance of diurnal rhythm of energy expenditure in genetically diabetic obese rats M. Ichikawa, K. Miyasaka, H. Ebisawa, A. Shirakawa, M. Oota, Y. Fujita and A. Funakoshi	69
50	Protein modification with L-isoaspartyl residues and neuronal degeneration T. Shirasawa, Y. Iketani and M. Yamada	70
51	Phenotypes and age dependent changes in serum levels of ApoE among healthy Japanese F. Yamagata, W. Chen, K. Miyanaga and T. Shinoda	71

52	Apolipoprotein E and antioxidants have different mechanisms of inhibiting Alzheimer's β -amyloid fibril formation <i>in vitro</i> H. Naiki and K. Nakakuki	72
53	AApoAll amyloid deposition is suppressed by adenovirus mediated overexpression of type B apolipoprotein A-II gene in the mice T. Chiba, T. Matsushita, K. Kogishi, J. Wang, X. Chen, M. Hosokawa and K. Higuchi	73
54	Cathepsin D, a candidate γ -secretase in the generation of β /A4 amyloid protein G. Sadik, H. Kaji, K. Takeda, S. Hossain, and T. Shinoda	74
55	Processing <i>in vitro</i> of NACP/ α -Synuclein with cathepsin D H.M. Shahanara, K. Takeda, M.A. Alim, G. Sadik, F. Yamagata, K. Ueda and T. Shinoda	75
56	Interaction of NACP/ α -synuclein with β /A4 and effect on the fibril formation <i>in vitro</i> K. Takeda, S. Hossain, G. Sadik, K. Ueda and T. Shinoda	76
57	Search for presenilin binding factors F. Tsuruta, K. Takeda, M. Taoka, H. Kaji and T. Shinoda	77
