

BIOMEDICAL GERONTOLOGY

Vol.23, No.1, June, 1999

INVITED LECTURE

- Uncovering the secrets of aging using genetics in the nematode *C. elegans*
T E.Johnson, S Murakami, P Tedesco, J Cypser, E deCastro, C Link 2

SYMPOSIUM SESSION:

- S1 Telomere maintenance and chromosomal stability
Y Shinkai 4

- S2 Oxidative stress and aging arisen from mitochondria
N Ishii 6

- S3 Molecular function of Klotho gene
Y Nabeshima 8

- S4 The SAM strain of mice as an animal model of senescence acceleration
and senile degenerative diseases
M Hosokawa 10

- S5 Helicase disorders and aging
J Nakura 12

- S6 Sympathetic nerve activity in elderly
K Shiraki 14

1. Mechanism of the transmission of mouse senile (AApoAII) amyloidosis-1:
Oral transmission of the amyloid fibril seeds
K Higuchi, M Mori, T Chiba, A Nakamura, L Fu, Z Guo, X Yanming, T
Korenaga, T Matsushita, K Kogishi, C Xia, M Hosokawa 16

2. Mechanism of the transmission of mouse senile (AApoAII) amyloidosis-
2: Transmission by the amyloid fibril seeds in feces
X Yanming, A Nakamura, K Kogishi, M Hosokawa, K Higuchi 17

3. Expression of mouse senile amyloid protein (apoA-II) mRNA in various
tissues-analysis using *in situ* hybridization technique
L Fu, A Nakamura, I Matsuyama, X Yanming, Z Guo, T Chiba, T Korenaga, J
Nakayama, M Mori, K Higuchi 18

4. Interaction of A β (1-42) and A β (1-40) in Alzheimer's β -amyloid fibril
formation in vitro.
K Hasegawa, H Naiki 19

5. Some electrophysiological properties of locus coeruleus neurons in aged F344 rats T Shirokawa, Y Ishida, K Isobe	20
6. Alteration of Hsp70 expression in brain with aging K Unno, M Kaiho, H Fukatsu, S Suzuki, S. Okada N Oku	21
7. Alteration of Hsp70 expression in SAMP10 S Suzuki, K Unno, N Oku	22
8. Progressive neuronal DNA damage associated with age-dependent cerebral atrophy in SAMP10 mice A Shimada, M Hosokawa, H Keino, N Seriu, M Kishikawa	23
9. The changes in the mitochondrial gene expression during neuronal death induced by reactive oxygen species F Gomi, Y Uchida	24
10. Effects of hyperoxia on hypothalamus-pituitary axis during aging T Shinkai, M J. Ishimaru	25
11. Rasagiline increases antioxidant enzyme activities in dopaminergic tissues in F-344 rats C Minami, K Kitani, W Maruyama, N Maoi, K Ohashi, T Yamamoto, M.C. Carrillo, S Kanai	26
12. Comparison of synaptic fusion proteins in aged- and adult-rat brains M Iwamoto, Y Tanaka, Y Shoji-Kasai, S Ando	27
13. Parkinson's disease and pyridine-N-methylation Y Kobayashi, K Matsubara, S Fukushima	28
14. Isoaspartyl modification of amyloid β protein and Alzheimer's disease T Shimizu, H Fukuda, M Nakajima, H Mori, T Shirasawa	29
15. Estimation of limit life-span II K Suematsu, M Kohno	30
16. Changes in biochemical parameters in aging rodents with an emphasis on private and public changes K Kitani, C Minami, W Maruyama, T Yamamoto, K Ohashi, M Naoi, S Kanai, M.C. Carrillo	31
17. Survival of laboratory rodents at NILS Aging Farm S Tanaka, T Segawa, N Tayama, O Miyaishi	32

18. The main cause of death of laboratory rodents in NILS Aging Farm O Miyaishi, K Matsuzawa, K Isobe, S Tanaka	33
19. Characterization of 4 strains of rat deriving from F344 under the different nutritional environments S Shumiya, K Kuramoto, H Waki, Y Tanaka, S Ando, Y Itoh, H Itoh, M Kaneko	34
20. The effects of spontaneous wheel running activity on physiological rhythm and body composition in SAMY Yanagidaira, A Okano	35
21. Intestinal disorder of SAMP6 -Part II- K Matsuzawa, O Miyaishi, S Tanaka, K Kitani, K Isobe	36
22. Relationship between apoptotic chondrocytes and osteoarthritis in the temporomandibular joints of SAMP3 mice; a model of spontaneous degenerative joint disease M Kimoto, M Hosokawa, M Shimizu, S Kasai	37
23. The tubular aggregates in the skeletal muscle of the Senescence- Accelerated Mouse; SAM T Nishikawa, J A Takahashi, T Matsushita, K Higuchi, N Hashimoto, M Hosokawa	38
24. Altered cardiac function and production of regulatory factors for coronary circulation in the aged rat A Ishihata, Y Katano	39
25. Glomerular epithelial injury and ageing S Handa, R. Nagasawa, K. Kikuchi, G. Chen, Y Eto, N Maruyama	40
26. Effect of aging on contraction of gastric smooth muscle S Kanai, K Miyasaka, M Ota, U Sato, T Takahashi	41
27. Heritable variation of the length of autogamy-immaturity in <i>Paramecium tetraurelia</i> R Komori, Y Takagi	42
28. Molecular characteristics of immaturin in <i>Paramecium</i> , II. N Haga, M Matsuzaki, K Ishikawa	43
29. Lifespan controlling mechanisms postulated from starvation experiments in <u><i>Drosophila melanogaster</i></u> . - The finite nature of individual lifespans suggested by the age change of resistance to starvation and genetic mechanism of lifespan increase by single starvation treatment I Yonemura, A Okano, H Hasekura	44

30. A systematic misexpression screen for longevity mutants in <i>Drosophila</i> K.H. Seong T Aigaki	45
31. Effects of mutation in <i>microsomal GST-like</i> gene on the longevity in <i>Drosophila</i> . G Toba, T Aigaki	46
32. Longevity of <i>Caenorhabditis elegans</i> and Heat Shock Protein 70 K Fukumoto, K Yokoyama, S Ohkuma	47
33. The role of Cyt-1 in oxidative stress-induced mitochondrial dysfunction and apoptosis in <i>C. elegans</i> . N Senoo-Matsuda, S Yoshimura, R Muto, A Akatsuka, P.S. Hartman, N Ishii	48
34. Effects of temperature and oxygen on life span in <i>mev-1</i> of <i>C. elegans</i> K Yasuda, S Yanase, N Ishii	49
35. Function of mouse <i>daf-16</i> homologues T Furuyama, T Nakazawa, N Mori	50
36. Mutation of the <i>Ogg1</i> gene in the mice and its association with senescence phenotype in the SAMP strains of mice. M Mori, H Naiki, A Nakamura, T Chiba, S Kondoh, S Toyokuni, M Hosokawa, K Higuchi	51
37. Genetic analysis of senescent phenotype in the SAM strains of mice Z Guo, M. Mori, E. Yoichi, A Nakamura, L. Fu, T Chiba, T Korenaga, X. Yanming, M Hosokawa, K Higuchi	52
38. Effects of glucocorticoids on IL-4 production of SAMP1 R Naruse, T Hosokawa	53
39. Regulatory effect of noradrenaline on NO production of SAMP1 mouse T. Hosokawa, N. Kiyama	54
40. Enhancement of immunological functions by administration of Kanpouhozai in aged mice M Utsuyama, J Shiraishi, A Wakabayashi, K Hirokawa	55
41. Oral tolerance and aging(3) A Wakabayashi, T Hosoda, M Utsuyama, K Sato, K Hirokawa	56
42. Analysis of specific gene expression regulated with caloric restriction in mice T Kayo, Y. Wada, A. Koizumi	57

43. Age-related lesions in the heart and skeletal muscles of dietary restricted rats Y. Ito, J. Shinohara, S. Yamada, T. Sato, H. Tauchi, K. Momose	58
44. Effects of aging and dietary restriction (DR) on apoptosis-associated gene expression in the hepatocytosis, II Y. Higami, I. Shimokawa, K. Tanaka, T. Tsuchiya, T. Ikeda	59
45. Dietary restriction suppresses hypothalamic GH-releasing hormone I. Shimokawa, K. Outa, Y. Higami, K. Tanaka, T. Tsuchiya	60
46. Effects of age and dietary restriction initiated from early senescence on the protein carbonyl contents of rat plasma and urinary albumin K. Nishizawa, R. Takahashi, S. Goto	61
47. Effects of age and dietary restriction initiated from early senescence on the protein carbonyl contents in rat mitochondria M. Nagai, R. Takahashi, S. Goto	62
48. Effects of age and dietary restriction initiated from early senescence on the activities of proteasomes and lysosomal enzymes in rat liver A Kumiyama, T Hayashi, R. Takahashi, S. Goto	63
49. Preventive effects of pro-vitamin C on age-dependent shortening of telomeric DNA and cellular senescence Y. Moritoh, S. Yokoo, K. Furumoto, E. Inoue, Y. Katafuchi, N. Nagao, N. Miwa	64
50. Telomere shortening with aging in human digestive tract mucosae K. Nakamura, K. Takubo	65
51. Accumulation of advanced glycation end -products in rat tissues -Effects of aging and dietary restriction M Komoda, I Shimokawa, Y. Higami, S. Horiuchi, T Miyata	66
52. Change in induction of uncoupling protein genes in rat fat tissues with age H. Yamashita, T. Mizuno, N. Mori	67
53. The effect of oxygen tension on the life span of human fibroblasts, smooth muscle cells, and endothelial cells K. Kaji, K. Igura, M.Abe, K. Suzuki, Y. Kuroda, T. Ohta	68
54. Cellular senescence and cytoskeleton: Extraordinary overproduction of vimentin and induction of senescent morphology in human fibroblasts K Nishio, A. Inoue, A. Mimura	69

55. Effects of population doubling levels and donor ages on the accumulation of oxidative DNA damage, 8-hydroxydeoxyguanosine (8-OHdG), in cultured human skin fibroblasts. T. Kaneko, S. Tahara, H. Kondo	70
56. Peroxynitrite induces apoptosis in human dopaminergic neuroblastoma SH-SY5Y cells: Involvement of p38 mitogen activated protein kinase K. Oh-hashii, W. Maruyama, H. Yi, M. Naoi, K. Isobe	71
57. Anti-apoptotic property of (-)deprenyl and its derivatives. W. Maruyama, K. Oh-hashii, K. Kitani, M. Naoi	72
58. Expression of stress-responsive protein in Cockayne syndrome cells - modulation of interferon- K. Sugita, X. Chi, T. Hiwasa, J. Nomura, K. Kita, N. Suzuki	73
59. Participation of bcl-2 on cellular life span. II T. Kumazaki, M. Sasaki, M. Nishiyama, Y. Mitsui	74
60. Molecular nature of mutation induced by radiation is different from that accumulated in old mouse T. Ono, H. Ikehata, Y. Saito	75
61. Change in appearance of 3' → 5' exonuclease after γ -irradiation during ageing in rat M. Tanno, T. Taguchi, S. Tahara, T. Kaneko	76
62. Effects of UV-A radiation on the cellular aging of human skin fibroblasts and its mode of action T. Chiba, T. Ohta, E. Naru, K. Arakane, K. Kaji	77
63. Gene expression of GADD34 and heat shock protein 40 by stress stimuli T. Hasegawa, K. Isobe	78
64. Investigation on the p21 promoter activity H. Xiao, T. Hasegawa, L. Qiang, K. Isobe	79
65. NF- κ B regulates the Mn-SOD gene transcription in NIH 3T3 cells K. Maehara, T. Hasegawa, K. Isobe	80
66. Molecular mechanisms and age-related changes of neuron-specific gene transcription N. Mori, T. Mizuno, Y. Naruse, H. Yamashita	81
